Risk assessment

SYSC 7.1.1	G	SYSC 4.1.1 R requires a <i>firm</i> to have effective processes to identify, manage, monitor and report the risks it is or might be exposed to.
SYSC 7.1.2	R	A <i>firm</i> that is a <i>UCITS investment firm</i> or an <i>operator of an electronic system in relation to lending</i> must establish, implement and maintain adequate risk management policies and procedures, including effective procedures for risk assessment, which identify the risks relating to the <i>firm's</i> activities, processes and systems, and where appropriate, set the level of risk tolerated by the <i>firm</i> .
SYSC 7.1.2-A	R	A <i>common platform firm</i> must establish, implement and maintain adequate risk management policies and procedures which identify the risks relating to the <i>firm's</i> activities, processes and systems and, where appropriate, set the level of risk tolerated by the <i>firm</i> .
SYSC 7.1.2A	G	Other <i>firms</i> should take account of the risk management policies and procedures <i>rule</i> (SYSC 7.1.2 R) as if it were <i>guidance</i> (and as if should appeared in that <i>rule</i> instead of must) as explained in SYSC 1 Annex 1 3.3 R(1).
SYSC 7.1.2B	G	A <i>management company</i> should be aware that COLL 6.11 contains requirements in relation to risk control and internal reporting that will apply to it.

[Note: article 76(1) of CRD]
SYSC 7.1.4A	G	<i>MIFIDPRU investment firms</i> should refer to MIFIDPRU 7 for more specific details on risk management expectations.

SYSC 7.1.5

R

A *firm* that is a *common platform firm* or an *operator of an electronic system in relation to lending* must monitor the following:

- (1) the adequacy and effectiveness of the *firm's* risk management policies and procedures;

SYSC 7.1.6

R

SYSC 7.1.7A

G

Other *firms* should take account of the risk management *rules* (SYSC 7.1.5 R to SYSC 7.1.7 R) as if they were *guidance* (and as if should appeared in those *rules* instead of must) as explained in SYSC 1 Annex 1 3.3 R(1).

(2) The *management body* of a *CRR firm* must be actively involved in and ensure that adequate resources are allocated to the management of all material risks addressed in the rules implementing the *CRD* and in the *UK CRR* as well as in the valuation of assets, the use of external ratings and internal models related to those risks.

(3) A *CRR firm* must establish reporting lines to the *management body* that cover all material risks and risk management policies and changes thereof.

[Note: article 76(2) of *CRD*]

SYSC 7.1.18

R

(1) A *CRR firm* that is significant must establish a risk committee composed of members of the *management body* who do not perform any executive function in the firm.

Members of the risk committee must have appropriate knowledge, skills and expertise to fully understand and monitor the risk strategy and the risk appetite of the *firm*.

(2) The risk committee must advise the *management body* on the institution's overall

current and future risk appetite and assist the *management body* in overseeing the implementation of that strategy by *senior management*.

(3) The risk committee must review whether prices of liabilities and assets offered to clients take fully into account the *firm's* business model and risk strategy. Where prices do not properly reflect risks in accordance with the business model and risk strategy, the risk committee must present a remedy plan to the *management body*.

[Note: article 76(3) of *CRD*]

SYSC 7.1.18AA

G

A *CRR firm* which is not a *significant SYSC firm* may combine the risk committee with the audit committee.

[Note: article 76(3) of *CRD*]

SYSC 7.1.18B

(2) The *management body* in its supervisory function and, where one has been established, the risk committee must determine the nature, the amount, the format, and the frequency of the information on risk which it is to receive.

[Note: article 76(4) of *CRD*]

SYSC 7.1.20

R

In order to assist in the establishment of sound remuneration policies and practices, the risk committee must, without prejudice to the tasks of the remuneration committee, examine whether incentives provided by the remuneration system take into consideration risk, capital, liquidity and the likelihood and timing of earnings.

[Note: article 76(4) of *CRD*]

SYSC 7.1.21

R

(1)

A *CRR firm's* risk management function (*SYSC 7.1.2-AR, SYSC 7.1.3R, SYSC 7.1.5R to SYSC 7.1.7R*) must be independent from the operational functions and have sufficient authority, stature, resources and access to the *management body*.

(2)

The risk management function must ensure that all material risks are identified, measured and properly reported. It must be actively involved in elaborating the *firm's* risk strategy and in all material risk management decisions and it must be able to deliver a complete view of the whole range of risks of the *firm*.

(3)

A *CRR firm* must ensure that the risk management function is able to report directly to the *management body* in its supervisory function, independent from *senior management* and that it can raise concerns and warn the *management body*, where appropriate, where specific risk developments affect or may affect the *firm*, without prejudice to the responsibilities of the *management body* in its supervisory and/or managerial functions pursuant to the *CRD* and the *UK CRR*.

The head of the risk management function must not be removed without prior approval of the *management body* and must be able to have direct access to the *management body* where necessary.

[Note: article 76(5) of *CRD*]

SYSC 7.1.23

G

(1) This *guidance* is relevant to an *SMCR banking firm* that has appointed a head of the risk management function.

(2) Taking account of the nature, scale and complexity of its activities, the *firm* should have appropriate procedures to ensure that the removal or any other disciplinary sanctioning of the head of the risk management function does not undermine the independence of the risk management function.

(3) It will be appropriate, in many cases, for the procedures in (2) to include that any approval for the removal of the head of the risk management function requires the approval of a majority of the *management body*, including at least a majority of its members who do not perform any executive function in the *firm*.

(4) It will also be appropriate, in many cases, for any other disciplinary sanctioning of the head of the risk management function to require the approval of a majority of the *management body*, including at least a majority of its members who do not perform any executive function in the *firm*.
